The A1 is the perfect size for an individual looking for more room or a couple on a budget; like the other units at Market Station the A1 includes: an island in the kitchen with pendant lighting overhead, refined cabinetry & laminate hardwood flooring (also available in the living room in select units), track lighting, a spacious living room, and a large walk in closet in the bedroom.

What sets the A1 apart from our other one bedrooms units are: the dining area (perfect for those that prefer to use a table, or are looking for a space to place a desk), a bathroom with a large garden style tub (the S1 does not have that!), a stacked washer & dryer and a coat closet near the front door (only one other 1 bedroom has that!).
